Art Unit: 1712

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 20, 21 and 25 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Lichtenhan et al. '562 for reasons of record.

Applicants traverse this rejection by stating that the reagent in '562 is Y_3SiR and that the instant invention uses a different reagent, Y_2SiRR . As such they conclude that the process and product are different from that in '562. Applicants even make this statement in a Declaration. It is not, however, persuasive since the Examiner does not see where applicants find support for this position in the teachings of '562. '562 uses a compound X-M-X as shown on column 2, line 29, and even refer to it as difunctional. See also the working examples 1a and 1b which use a difunctional silane. Since the Examiner can't find any factual support to applicants' traversal, this rejection is maintained.

3. Claims 1 to 17 are allowed, for reasons of record. The rejection of claim 18 has been withdrawn since there is nothing to suggest that the prior art produces the claimed POSS having OH groups in the exo-stereochemical position. The Examiner notes the Declaration provided by applicants to this extent, in addition to the fact that the prior art is silent as to any stereochemical position for the POSS therein. Claims 22 to 24 and 26 to 29 are objected to, for reasons of record.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
